

Real service.
Real commitment.
Real advantages.

Right now.

A lender you can count on.

**Farm Credit Services
of Western Arkansas**

The Right Lender for Right Now!

Farm Credit was designed more than 90 years ago to be a dependable and reliable source of credit for farmers and ranchers. FCS of Western Arkansas takes that commitment just as seriously today and extends it to rural homeowners and agriculture-related business, as well.

We pride ourselves in understanding western Arkansas agriculture and providing competitive rates and loan products to meet a variety of needs. Our loan officers live in your communities and many are farmers, themselves. That means they can relate to your needs and they care about the communities they serve.

As a cooperative, Farm Credit is locally-owned and managed by its members. Members elect a board of directors who live, farm and operate businesses in western Arkansas....again, just like you. Their goal is to provide the many benefits that Farm Credit has come to be known for, for many years to come.

Our members, directors, and employees are proud that our association is very well-capitalized, well managed, and positioned to weather current and future economic uncertainties.

FCS of Western Arkansas....
the **RIGHT LEADER FOR RIGHT NOW!**
