

FCS awards \$10,000 in Academic Scholarships

From graduate studies to first-semester college freshmen, a variety of students have earned FCS scholarships this year.

Winners will use their \$500 award to pursue everything from an agricultural law to nursing, education and animal science degrees. These winners will very likely be the vets, engineers, pharmacists and teachers leading our communities tomorrow.

As members of FCS of Western Arkansas families, we're proud of these students and of what they dream of accomplishing with their education.

The association again awarded \$10,000 in academic scholarships to 20 winners. Youth members and dependents of members are eligible for these awards that recognize outstanding academic and extra-curricular achievement.

This is the 11th year of our scholarship program. All of the applicants were very worthy again this year, making the selection process difficult. We are proud to have these fine young people representing Farm Credit Services on college campuses across the state, and region!

Interested in applying for a 2010 scholarship award? Complete information and application forms will be available from your local branch office and on our website at www.myaglender.com beginning December 1, 2009. Applications for 2010 will be due early next February.

Congratulations to our 2009 winners!
